Charge Capture Re-Imagined: Beyond SaaS

Eliminate Missed Charges Pre-Bill for Complete Revenue Capture

Ni2 Health
An INFINX Company

Overview: AI + Human Intelligence

Ni2 conducts 100% Charge Capture audit of prior 12 month's claims using its "ChargeView" AI powered proprietary platform.

No client IT help required. Ni2 data experts can handle all data extraction & report generation.

Ni2's specialized auditors accountable for medical record reviews to validate results.

Ni2's experts own the assessment analysis.

No risk / no budget needed structure – all fees fully contingent on delivered client benefit.

Post Assessment:

Ni2's Team Implements Best Practice Workflows With Client Clinical Departments to Fix Root Cause Drivers & Eliminate Missed Charges

100% AI-Powered Claim Audit	**15-25%** Claims Flagged for Review	**8-10%** Validated Claim Error Rate	**15-30** Initiatives Resolved	**1.8%** Assessed Average Revenue Lift	**2.3%** Actual Delivered Revenue Lift

> "The biggest concern in selecting a consult partner to provide needed help is trust. Ni2 has proven to be a company of ethics who puts what is good for my organization first. They provide a level of performance transparency rarely seen, and simply stated, they have delivered on their promises."
